
There are many websites on the web that help you to learn new things. Most of them are free which is always a plus. But how do you know which one is best for you? This post will go over 10 best websites to learn something new that I recommend following on your journey learning something new or creating content. Let's jump into it! The 37 Best Websites to Learn Something New:

- 1) Khan Academy This website teaches math, science, art, and history online for free. It has over 3 million users worldwide and an 8-star rating on Trustpilot. It helps students of all ages and skill levels improve their grades with over 3000 videos to help students prepare for classes. It also helps students to learn subjects they are passionate about. I really like Khan Academy because it's free, has high-quality content, and it has a lot of content that other websites don't have.
- 2) CodeAcademy One of the best websites to learn how to code online for free, CodeAcademy is a free interactive Python programming course working in conjunction with real-life editors on the web. It also offers video courses in JavaScript, HTML/CSS, PHP, and Ruby. It's a great way for a beginner to learn how to code from scratch and for more advanced developers to brush up on their skills.
- 3) Coursera Coursera is an online interactive learning platform that partners with top universities and organizations worldwide, to offer courses, specializations, and degrees. It helps you learn new skills from the world's best instructors. Over 29 million people use Coursera.
- 4) Udemy Over 17 million people use Udemy to learn online through over 45 thousand courses taught by expert instructors. It is a great resource to learn new skills and make money online. You can find courses on Python, WordPress, Python, and Selenium.
- 5) Pluralsight It is an online learning platform that offers business & technology training as well as an API for corporate training delivery systems. It has over 2 million members and over 1600 courses available for any profession. Pluralsight is used by companies such as Google, Accenture, Deloitte and Capital One.
- 6) Treehouse Treehouse is a free online platform that offers web design, app development and entrepreneurship tutorials. It has over 800 courses taught by some of the best instructors in the world. It's a great resource for anyone who wants to learn and build websites and apps and it can help you with everything from web design to technical writing to app development.
- 7) SkillShare SkillShare is a marketplace for learning where thousands of topics are taught by expert instructors. Thousands of beginners as well as professional s see how to learn something new on Skillshare.
